

MEHMET ALI BUK

Sligo, Ireland | bukmehmetali6615@icloud.com

PROFILE

Third-year Software Development student at ATU Sligo, comfortable working with C#, Angular, AWS and MySQL from college projects and my own practice. Alongside my studies I work in the events team at the Radisson Blu Hotel in Sligo, so I'm used to working under pressure, meeting deadlines and being part of a team. Looking to bring that mix of technical skill and work experience into a software engineering role.

EDUCATION

BSc (Hons) Software Development — Atlantic Technological University (ATU), Sligo 2024 – 2028 (*expected*)
Currently in third year, one year remaining.

Relevant modules completed:

- Introduction to Programming 1–4
- Mathematics 1–4
- Cloud Computing
- Client-Side Scripting
- Software Quality Testing
- Web Development
- Web Programming

TECHNICAL SKILLS

Languages & Frameworks: C#, Angular, JavaScript, HTML/CSS, Bootstrap

Databases: MySQL, DynamoDB

Cloud & Tools: AWS, REST APIs, JSON, Git/GitHub

ACADEMIC PROJECTS

Coursework projects built across the modules above, including:

- Web front-end built with Angular and Bootstrap, pulling data from a REST API in JSON format (Web Development / Web Programming).
- Small AWS-hosted project using DynamoDB for data storage (Cloud Computing).
- C# application with a written set of test cases, covering the basics of software testing and quality assurance (Software Quality Testing).
- Series of C# programs covering core programming fundamentals — logic, data structures and problem solving (Introduction to Programming 1–4).

WORK EXPERIENCE

Events Team (M&E) — Weddings & Functions — Radisson Blu Hotel, Sligo *March 2026 – Present*

- Work on the meetings & events side of the hotel, mainly weddings, alongside other functions.
- Balance this alongside full-time study, working well under pressure and to tight deadlines.
- Regular customer-facing work, building communication and teamwork skills.
