

Mehmet Ali Buk

Software Development Student · ATU Sligo

Sligo, Ireland | 089 977 9790 | bukmehtali6615@icloud.com

PROFILE

Third year Software Development student at ATU Sligo, with practical knowledge in C#, JavaScript, Angular, Express, REST APIs and AWS through college projects. I love creating stuff that people use, whether that be websites, APIs or the feedback module that I am developing with my peers. Also an events staff member at the Radisson Blu Hotel where I know how to deal with stress, deadlines and teamwork.

EDUCATION

BSc (Hons) Software Development | ATU Sligo 2024 – 2028 (expected)

Currently in third year. Modules this year: Rich Application Development, Mobile Application Development, Web Programming 2, Software Project Management, Professional Development. Module results: all 40–60%, all modules passed, I use AI tools to work faster, but I always try understand the code I write.

TECHNICAL SKILLS

Languages: C#, JavaScript, HTML, CSS

Frameworks: Angular, Node.js / Express, Bootstrap

Databases: MySQL, MongoDB, DynamoDB

Cloud & Tools: AWS, REST APIs, JSON, Git & GitHub

PROJECTS

Module Feedback System | Project 300, group project 2026 – Starting

- A system for ATU where students and lecturers can review modules and check the feedback, so modules can keep getting better. (Not yet Started)

Link:

GitSearch | Personal project In progress

GitHub API

- A search website for GitHub repos. Basically Google, but for GitHub, so you can quickly find projects and code.

Link: <https://s00254071.github.io/GitSearch/>

Car Listing Website | Group project Completed

API · MongoDB

- A website for listing and browsing cars for sale, like Facebook Marketplace but just for cars.
- Car listings are saved to a MongoDB database through an API.
